

MIDLAND METROLOGY LIMITED

Pin Gauges

A set of pin gauges ideal for precision measurement of hole sizes, hole distance, pitch diameter of the thread. Also ideal for gauging location, gauge slots, distance between holes, go and no go gauging, setting other gauges and micrometers. The pin gauges are housed in a tailor made fitted protective case with sizes clearly labelled.

Fully hardened alloy steel

Heat treated to hardness of greater than 63HRC

Gauges are cylindrical with pin length of 50mm or 2"

Measuring size in increments of 0.02mm

Metric tolerance +/-0.002mm

Imperial Tolerance +0.0002in/-0.0000in

Conforms to ISO standards DIN 861 for guaranteed accuracy and reliability

Pin Gauge handle included (varies according to set)

Complete with case.
